#1820 POCKET SABRELITE™

The Pocket SabreLite™2C is made of unbreakable ABS body with a polycarbonate lens and thermoplastic rubber shroud. Features include a pre-focused Xenon laser spot lamp module, belt/shirt clip and lanyard. It is 5-13/16" (14.7 cm) in length compact and fits comfortably into the hand or clips onto clothing. It includes 2-C cell Alkaline batteries. The Pocket SabreLite™2C is water proof and submersible to 250 feet, built tough and ideal for industrial, recreational and home use. You break it, we replace it... forever.
